## LEONARD — CHRISTOPHE DELCOURT 2026

1—  
2

The Leonard armchair represents a contemporary reinterpretation of modernist icons in an almost archetypal exploration of the informal and versatile seat designed for both work and leisure. Set within a wooden shell mounted on a swivel metal base, Leonard fits effortlessly into various contexts - from the office or bedroom to the entrance hall or living area - adapting with balance to multiple uses and spatial configurations. With this project for the Molteni&C collection, Christophe Delcourt introduces a chair of strong character that is deeply rooted in the company's design and manufacturing expertise.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013. The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.
