GRADO° BOOKSHELF — RON GILAD 2014

1—
2

Next to the verticality another outstanding feature is the permeable solid that emerges from the wall. Grado° Bookshelf is an interior design element that stands out for its essential lines and its ability to fit with any other piece of furniture. Grado° was designed by Ron Gilad who has been shortlisted for the 2014 Compasso D'Oro award. A new addition to this collection is the Grado° Bookshelf, a suspended element with a distinctive 45° section, easy to use to create impactful suspended book shelves. The certainties of the classical collection is dedicated to those who love tradition and rigor.
