FILIGREE —
RODOLFO DORDONI 2013

Series of tables with a sinuous shape of the die-cast aluminium leg and thin tops. The extendable table provided with an invisible lateral telescopic system allows users to have: a complete table top without cross cuts, double length extensions, maximum usability of table top due to the corner legs, minimum thickness of tops, housing of the mechanism and extensions in only 38 mm (interior thickness). The tables are available in different materials and finishes to satisfy the greatest number of requirements. In 2025, Rodolfo Dordoni's Filigree table, a Molteni&C classic, is enriched with new finishes, offering new expressive possibilities for this best-selling product. The structure is now offered with a refined Iridium brown finish, a metallic surface with a warm, soft-to-the-touch tone. This new color, which integrates harmoniously with the entire Molteni&C production, is further enhanced by new tops in eucalyptus wood with inlay.

The series of Filigree tables is now completed with new tops in Ecotone™, a mineral agglomerate and the ideal solution for surfaces and finishes in line with a contemporary living style, guaranteed to deliver constantly evolving even better performance.

- woods: eucalyptus, thermo oak, graphite oak, coffee oak
- inlaid eucalyptus

STRUCTURE FINISHES
iridium brown
pewter colour satin finish

TECHNICAL INFORMATION

FIXED TABLE STRUCTURE
Extruded anodized aluminium, painted, with internal metal frame and plywood crosspieces.

EXTENDABLE TABLE STRUCTURE
Anodised extruded aluminium with internal metal frame and runners on extruded aluminium tracks.
Telescopic cover profile of the extendable table in extruded plastic.

GLASS TOP
Transparent or etched extra light glass, tempered, th. 6 mm, painted in colours in the Molteni range.

WOOD TOP AND EXTENSIONS
Composite panel of medium density fibre and aluminium sheets, th. 1mm, covered in wood veneer.

MARBLE TOP
Marble in Molteni range finishes with anti-stain, water-repellent treatments.

ECOTONE™ TOP **ONLY FOR FIXED TABLES ***
Slabs produced using recycled components with some veins highly visible and others less obvious, but always through-body that preserve the characteristics of performance and durability with the added extra of a more eco-friendly formula.

FIXED TABLE BASE
Wood particleboard panel with painted melamine facing.

EXTENDABLE TABLE BASE
Medium density fibre composite panel with external surface in anodised aluminium sheet, th. 1mm.

LEGS
Die-cast aluminium: brushed, polished, chromed, or painted.
Internal metal brace and foot in non-slip plastic.

ECOTONE™ A constant commitment to research and innovation

The new generation of slabs with recycled components

Ecological, a resin derived from bio compounds

A silica content of less than 5%

A production process that uses largely energy from renewable sources, such as wind, solar and biomass

The almost total recycling of water sed by the plants

ECOTONE™ Features

Waterproof
does not absorb liquids

Fireproof
is heat resistant and non-flammable

Anti-scratch
is difficult to scratch

Acid resistant
resists external aggressions

Shock resistant
withstands impacts well

Stain resistant
resists stains from many products and is non-porous
