Molteni&C

HECTOR — VINCENT VAN DUYSEN 2020

Modular, modern and flexible, the Hector system is designed to create aerial and dynamic compositions with elements exploiting the characteristics of mounting brackets secured between floor and ceiling or to the wall. The many combinations of possible finishes offer compositions that differ in terms of visual impact and attractive shapes, transforming Hector from a modern Hi-Tech bookcase into a traditional bookcase.

The feet of the mounting brackets and the connections of the shelves and containers in black oak are always in a slate finish. *

The feet of the mounting brackets and the connections of the containers in sunrise oak are always in the same finish as the ** shelf frames with which they are combined in the composition.

Inserts are always made to match the frame:

TECHNICAL INFORMATION

MOUNTING BRACKET

Extruded aluminium, painted or anodised and clad in wood veneer.

SHELF FRAME

- Painted aluminium, composed of die-cast and extruded parts.
- Solid wood.

SHELF INSERTS

- Extra-clear transparent or smoked tempered glass.
- Medium-density fibreboard panel covered in wood veneer or with melamine and painted in the colours of the range.

CONTAINER WITH FLAP DOOR

Chipboard panel clad in wood veneer. The inside of the flap door is available with a bonded hide leather insert in the colours of the range.

DECODER CONTAINER UNIT

Chipboard panel clad in wood veneer.

TV SUPPORT

Support in phenolic plywood with metal parts for mounting on the uprights.

NOTES

Compositional ceiling fixing diagram

- ► The mounting bracket, H max 315, can be made to measure, at no extra cost.
- The depth of the bookcase cannot be reduced.
 The shelf with a solid black oak frame is not available with LED lighting, or in W 113.1 cm.
- The shelf with a solid black oak frame is not available with LED lighting, or in W 113,1 cn
 The shelf with a solid black oak frame and containers cannot be reduced in any way.
- Shelves with frames in slate, pewler colour, bronze and iris can be reduced in width at a supplementary cost each.

Minimum reduced shelf measurement 30 cm (centre distance).

- ► The height positioning of the shelves and containers is at the customer's discretion.
- The positioning of the mounting brackets cannot be changed.
 The system involves anchoring the mounting brackets to the floor and ceiling.
- The system involves anchoring the mounting brackets to the floor and ceiling.
 The unit with lower flap door is available with the door interior in bonded hide leather in
- Molteni range colours. The flap door cannot be considered a worktop, but only a surface on which
- to place lightweight materials. ► The storage units only come with W 83,1 cm.

LED LIGHTING

- ► The shelves can be fitted with LED lighting.
- ▶ The system complies with European safety regulations.
- ► To light the walk-in closet, the mounting brackets are wired with an electrified cable duct and the shelves fitted with a power socket. For each module of the composition, it is possible to insert 1 or more shelves with LED
- lighting and, through the electrified cable duct inserted in the mounting brackets, the shelf can be moved at will.
- ► Each power supply unit supports LEDS up to 72 watt. To calculate the number of power supply units required, see the example on page 6.
- ► The electrical system starts from the sx-left mounting bracket of the first module to be electrified.

Molteni&C

5-9

- ► Compositions with lighting are required to have each module approximately 30 cm above the ground:
 - One shelf with aluminium frame and wood insert (wood or lacquered). -Or a decoder unit, a drawer unit or a unit with lower flap door. All these elements must be aligned as they are required for the electrical connection.

DIMENSIONS

- ► The mounting bracket, H max 315, can be made to measure, at no extra cost.
- Shelves with frames in slate, pewter colour, bronze and iris can be reduced in width at a supplementary cost each (with or without LED lighting). Minimum reduced shelf measurement 30 cm (centre distance of mounting brackets).
- ► The mounting brackets are prepared for ceiling, floor, and wall fixing. The dealer is tasked with choosing the most suitable and safest fixing means for each specific situation. We recommend a scrupulous preliminary check of the structural state of the ceilings or walls before ordering and installing the Hector unit.
