REGENT — VINCENT VAN DUYSEN 2023

1—
3

The Regent tables by Vincent Van Duysen are the indoor alternative of the version introduced for the Molteni&C Outdoor Collection. In designing the new tables, Van Duysen shows the fluidity and essential nature of his projects, proving that aesthetically, these shapes can comfortably inhabit any setting, creating natural continuity between indoors and outdoors. The base of the Regent table consists of a burnished metal ring enriched with slender legs to create the structure. A symmetric ring supports the table top made of different finishes: enamelled lava rock or opaque finish lava rock. Shiny lava rock or marble enrich the indoor version. The Regent table is available in different proportions and shapes. From the low, wide versions with an oval shape perfect for use as a coffee table, to the round versions which are easily adapted as a surfaces next to a sofa. The versatility of Regent, combined with its sophisticated, minimalist shape, marks a step forward in the long collaboration between Molteni&C and Vincent Van Duysen, opening the doors to interpreting the extensive catalogue of the historical brand for entirely new contexts and environments.
