PAUL — VINCENT VAN DUYSSEN 2016

1—
11

Paul is a set of elegantly proportioned sofas with reassuring lines, elements that emphasize Vincent Van Duysen's expressive rationality. The project includes linear sofas, angular compositions, chaises longues and islands, all with a single seat cushion. Paul features generous dimensions, distinctive double seams and great comfort, elements that look good, even in the center of the room. The impression is lightweight, accentuated by the neat design of the pressure die-cast aluminum feet. Items featuring considerable depth complete the project, for a comfortable, luxurious and cosy way of sitting.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013. The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.
