1 2 3 — MICHAEL ANASTASSIADES 2024

1—
2

Designed by Michael Anastassiades, the 1 2 3 chair embodies a harmonious blend of sophistication and comfort, emphasizing the essence of color and the purity of materials. Its name whimsically reflects the process of finding the ideal balance in the number of vertical slats adorning the backrest. After thoughtful consideration and testing, three slats were chosen, resulting in a structure that exudes elegance and lightness, embodying a refined synthesis of design principles. "I've always been drawn to chairs with open backs," explains Michael Anastassiades, shedding light on the inspiration behind his creation. The absence of material in such chairs imbues them with visual lightness and a distinctive, iconic identity. This guiding concept led the designer on a journey of exploration, culminating in the selection of three precisely arranged vertical slats within a solid beech frame. Crafted and lacquered with care, the chair showcases seamless joinery techniques, enhancing its minimalist aesthetic. "Three slats also establish a rhythmic harmony, creating a subtle separation between the seated individual and the surrounding environment," notes the Cypriot designer, pleased with the outcome, and ever attuned to the interplay between object and user. Meticulous material selection and expert craftsmanship are the hallmarks of this chair, a testament to design precision and creative vision. The 1 2 3 chair emerges as a versatile addition, enriching any setting with its distinctive presence, characterized by geometric purity and graceful lightness.
