

TIMEOUT COLLECTION

PETALO — VINCENT VAN DUYSSEN 2024

1—
3

Vincent Van Duysen's Petalo armchair embraces with its gentle curves, creating a cozy nook within its delicately enveloping backrest. The design is a testament to the artistry of the Outdoor Timeout Collection. To support its abundant lightness, Petalo boasts a solid aluminum structure in a distinctive merlot red color, chosen for its recyclable metal characteristics and inherent lightness. This choice aligns with the Molteni Group's longstanding sustainable approach. The backrest, available in high and low versions, serves as a canvas for the intricate dance of polypropylene fiber ribbons. These ropes, commonly used in nautical applications, are colorfast and resistant to water and challenging climates. For added creativity, the comfortable pouf provides an additional surface to complement the armchair. The two heights of the backrest (high and low) allow for different comfort solutions and the possibility of creating dynamic layouts by playing with the combination of different volumes. The aluminum component finished in merlot red stands out against the ecru of the polypropylene ropes woven with artisanal skill, emphasizing the trait of rigor and personality. The essential and enveloping seat cushion is able to satisfy any aesthetic taste and any ergonomic need. The backrest can be presented like without padding, with small but pleasant backrest cushions, or, alternatively, with a large spoke cushion available for the high back version that describes the perimeter of the structure and makes it one with the seat enhancing the level of comfort.

The product may be used outdoors but requires particular care in the event of rain (see price list maintenance and waterproof cover)

DIMENSIONS

Notes

- ▶ For correct ergonomics and maximum comfort, we recommend adding a back cushion to each element. Molteni&C suggests types and quantities for each element.
- ▶ For the tall armchair only, an enveloping protective cushion can be chosen as an alternative to traditional back cushions.
- ▶ No reductions of any kind or changes to the finish are possible.

When ordering

Always specify the item code and backrest cushion codes with their categories and variations
