Molteni&C

ALBERT —
VINCENT VAN DUYSEN 2018

The new seating system reflects the Molteni&C corporate profile, based on two key words: tradition and technology, linked by the leitmotif of perfectly clean lines. A flexible and dynamic seating system, rich in content, which shows how research and craftsmanship have always been part and parcel of the company's DNA. Albert is a brave step forward in the search for a seating system conceived as a flexible and disarticulatable structure, that can reshape the new complexity of modern living, marked by extreme planning.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013.
The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.
