OVIDIO — VINCENT VAN DUYSSEN 2023

1—
3

The Ovidio bed by Vincent Van Duysen is designed to be the centrepiece of the bedroom: an extraordinary combination of sober elegance and utmost comfort, where no detail is left to chance and the leading role is played by the headboard. “This new bed is characterized by a blend of many details, a very elegant object that converses with a modern style,” states Vincent Van Duysen. The headboard, a synthesis of research and refinement, is available both in leather and fabric. A discreet smoked metal frame with rounded corners carefully defines the structure. The front part, where the profile is straight, is covered in leather, available in the same colour as the upholstery (tone-on-tone) or in contrasting shades, allowing for the choice of a bolder or more subdued aesthetic. The facade is further enriched by “diamond” stitching that runs vertically throughout the element. The bed is available in three dimensions, 160, 180 cm, and a King size, for maximum flexibility within the space. Ovidio is a contemporary classic that combines modern design with unparalleled comfort. The bed’s attention to detail, including the hand-stitched vertical seams in contrasting thread and flat aluminium frame, make it a truly exceptional piece of furniture and a standout addition to the bedroom.

In case of customer slatted base and/or mattress, check the correspondence of the measurements with the standard ones in the price list.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013. The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.
