HONEY —
ARIK LEVY 2009

A simple but elegant bed characterized by its upholstery in fabric or leather, its materials and its tailoring, typical of the most refined "couturiers". Honey is a fabric bed with a modern line, a bed of limited size, designed to fit into various sleeping environments. The container below the mattress opens with a swing mechanism developed to ease access to the compartment. The front opens to allow access to a horizontal lift for comfortable bed making.

In case of customer slatted base and/or mattress, check the correspondence of the measurements with the standard ones in the price list.
For the versions with lifting base, please consider a mattress weight limit of 45 kg.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013.
The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.

Dimensions in centimeters and inches. The right to discontinue and make changes is reserved. This information is based on the latest product information available at the time of printing.
