1—
2

Secretello is a desk designed like a modern workstation, functional and self-sufficient. It reinterprets the theme of the secrétaire associated with that of a glass display cabinet in a contemporary key. Designed for use in a home environment too, this desk, protected by glass walls, features elegant construction solutions, along with quality materials and finishes. Made entirely of wood and safety glass, Secretello consists of a solid natural oak frame which, in the transparent parts, includes a pane of extra clear glass.
