BALTIMORA — MATTEO NUNZIATI 2023

1—
3

Baltimora is a double face island unit/display case, perfect for use in the centre of the room. Versatile and eclectic, it adapts to any use in the bedroom, creating a single unit with existing walk-in closets and wardrobes. Available in two sizes, it is elegantly designed to hold, display, and welcome any element destined for the dressing area. An extremely functional element with dual use: to hold bedroom objects and — with the bench and its soft stitching available in all fabrics and leathers in the Molteni&C collection — to create an unexpected, welcoming place that creates more room. The two drawers in the lower part of the bench add an additional touch. The island, with soft, rounded lines, consists of either a transparent glass top or an Eco Skin top, and a wood structure that supports the cushions available in all fabrics and leathers in the Molteni&C collection.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013. The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.
