### D.154.2 OUTDOOR — GIO PONTI 2022

1—  
2

One of Gio Ponti's most iconic and representative pieces, designed in 1954 for the villa of the Planchart collectors in Caracas (1953–57), is now reworked in an outdoor version. The careful study of materials and technical performance guarantee not only respect for the fine original design, but also the durability that characterises all Molteni&C products.
